STEP 1: Navigate to URL and choose Math Inventory

<https://h100002412.education.scholastic.com/slms/studentaccess>

STEP 2: Assist students with login. Username= **LAUSD ID**, Password= **LAUSD ID**

A login form with two input fields: 'Username' and 'Password'. To the right of the 'Password' field is a grey button labeled 'Go On'.

STEP 3: Students will complete typing practice to help familiarize themselves with location of number keys.

10

10

STEP 4: Before the test begins, students will be prompted answer some **practice** fact fluency questions *as quickly as possible*.

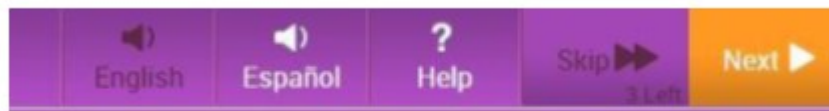

$$3 + 6 =$$

STEP 5: Next, students will receive directions for the test. Directions can be read aloud- if students use headphones- and are available in **English or Spanish**.

STEP 6: Students will be shown the formula and calculator tools. **NOTE:** These tools will only be available/clickable for particular questions.

STEP 7: Students will complete practice questions and then click **NEXT**.

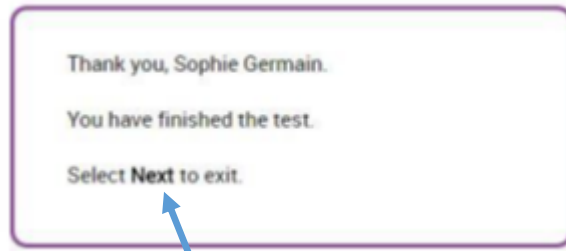

STEP 8: Upon completing the practice questions, student will see the following icon bar:

Option to hear directions in either **English or Spanish**.

Up to 3 Skips allowed.

STEP 9: Students complete test. When student has answered enough questions to generate a Quantile score, the test will stop and show a message like **THIS:**

STEP 10: Students must click **NEXT** to ensure their test score is logged.
